EXPERIENCE

Senior Game Developer Mar 2024 - Present
Pascal Gaming / BetConstruct — Yerevan (hybrid)

- Own and ship Pascal Gaming's full casino catalogue full-cycle in **PixiJS v8 / TypeScript** across 14+ verticals — slots, live & 3D roulette, blackjack, baccarat, crash, Plinko, Mines, poker, Deal-or-No-Deal.
- Co-developed **Non-Stop Roulette** (SBC Awards Americas 2025 GotY shortlist) as part of the game team.
- Architected** the studio's Spine + particle VFX web editor, the daily tool of 15 people across a 21-animator art team, plus an AI animation-benchmark / QA tool.
- Built and own the team's **Claude Code + MCP build pipeline**; sustain 120 fps on mobile win ceremonies via batching, GPU instancing & zero-GC pooling; mentor mid & junior devs.

Team Lead • Metaverse Platform Engineer 2020 - Mar 2024
Fastexverse / PandaMR

- Scaled a metaverse-aggregator platform from prototype to production as founding engineer, leading 10 Unity developers plus front-end, back-end & QA.
- Shipped live in-world events & ticketing, immersive 3D worlds (VR/AR/WebXR), in-world casino integrations, wallet and on-chain payments; introduced the team's first AI tooling.

Game Developer (freelance, alongside PandaMR) 2019 - 2023
Extra Studio LLC — freelance / contract

- Built mini-games, mini table games and playable ads — the studio's highest-volume output — concept to art integration in Three.js & PlayCanvas; mentored juniors.

Three.js Developer 2018 - 2019
Arakssys

- Built virtual rooms & computer-vision measurement for apartment visualisation — Three.js + React; tuned rendering accuracy & cross-browser performance.

Front-End Developer 2017 - 2018
WebApricot

- Delivered responsive cross-browser pages and early Three.js / WebGL builds — where the custom-shader habit started.
